

Aerius Quattro I 490 SL MAXIMUM Payload and Clearance and Optimal Safety

What you can't see makes the difference!
4 integrated air sponsons...

The Aerius [Quattro I 490 SL](#) single and the [Aerius Quattro II 520 double model](#) are based on the Aerius Expedition design, but with one exceptional difference : they have 4 integrated air sponsons. This increases load capacity and maximizes buoyancy and safety. With fully inflated air sponsons, the hull shape changes from a V to a U. The latter mode allows for maximum payload and shallow water efficiency. See the difference in hull shapes in the figures below.

Military Application: The Klepper MK13 (equivalent to the civilian expedition model) was the official "stealth" kayak of NATO since 1953 and has been replaced by the four air sponson Commando known in its civilian version as the [Aerius Quattro II 520](#) (the double version of the Quattro I 490 SL).

The Aerius Quattro I 490 SL can be sailed with the [Freewind Downwind sail and the S1 sail](#).

Standard equipment on the Quattro I 490SL include:

- [black Hypalon hull](#) with 4 air sponsons
- uni-coloured or two-tone [Egyptian cotton deck](#)
- mountain ash and baltic birch natural wood frame
- length adjustable seat
- D-ring for rudder lifting
- perimeter safety line
- deck pockets for paddles
- 2 x 2.4' and 1 x 10' keel strips
- deck bungee
- rear loading hatch

The rear loading hatch included on all Aerius Expedition Quattro I 490 SL Klepper folding kayaks is sealed with velcro flap and opens with a zipper as shown on this blue boat.

Price (Canadian \$)	From \$4,740, including 3 carrying bags, with a black Hypalon hull and also available with lighter weight TPU hull for \$4,890, including 3 carrying bags. Find more details on the prices page or contact a dealer .
